828-683-0323

Hand thrown, hand built, and extruded functional pottery. All glazes are made by the artist.

Artist Bio

Cooncats Pottery is inspired by Denise's love for her Maine Coons. In 1999, she retired after 30 years in education. She moved to Leicester, NC, where she resides on a hobby farm with her husband Ron, several cats, dogs, goats, a llama, and a foster cat or dog every now and then. In keeping with this back to nature theme, pottery seemed a natural creative outlet.

She also spends time volunteering with Brother Wolf Animal Rescue rescuing cats with the "Cat Team." If there is something special you would like Denise to try and create for you or your friends, please feel free to contact her. She hopes you enjoy these unique pieces of functional art and use them each and every day.

Remember to spay or neuter your pet.

Artist Statement

I believe art should be functional and used every day. My hope is that my one of a kind approach to pottery pieces provides my clients with as much enjoyment as I experienced in creating them.
