Linda creates hand poured
Aromatherapy Soy and Beeswax
Candles using only natural,
renewable waxes and pure essential
oils. Finding something that she
loved to do from the heart, with the
intention of offering pure products
that would help others become calm
and balanced, set her on the path of
candle making.

Artist Bio

Linda was born in Florida, grew up in Connecticut, and was lucky enough to land in Leicester. She searched at a very young age for her purpose in life, always remembering that she wanted to contribute to helping others in some small way.

Her belief in the power of Aromatherapy and her love of candles led her to create a line of all natural candles using pure essential oils, soy wax, and beeswax. Over the years her product line expanded to include beeswax luminaries with handpicked and pressed flowers, organic herbal products, flower water mists, sun catchers, and essential oil blends.

The simple act of lighting a candle can enhance the energy of any space, and combined with the restorative benefits of aromatherapy, you'll soon feel the relaxing effect of Linda's candles.

Artist Statement

My goal each day is to live every moment with genuine intentions and kindness in my heart in the hope that this transfers to whatever I do, and I in some small way hope my products enhance and contribute to the calmness and peacefulness of your life.
